BELZONA PROTECTS LISTED BUILDING

CUSTOMER
Local Council Contractors, Liverpool UK

APPLICATION DATE
September 2001

APPLICATION SITUATION
Grade 1 Listed Building

PROBLEM
Traffic, pollution and grime had discolored the facade of the building.

PRODUCTS
Belzona® 5151 (Hi-Build Cladding)
Belzona® 3111 (Flexible Membrane)

SUBSTRATE
Masonry coated with Belzona® 3111

APPLICATION METHOD
Application was carried out in accordance with Belzona Know-How System Leaflet WPA-1.

BELZONA FACTS
Eleven years previously this building had been coated in Belzona® 3111 to stop external water and damp ingress. After inspection it was revealed that although it had become very grimy the Belzona coating was still in very good condition and would continue to function. The client decided that rather than just cleaning it, a self cleaning coating from Belzona would be better. The building is still looking good four years later.
