

## BELZONA REPAIR TO POWER PLANT COAL BELT

### CUSTOMER

Power Station, Missouri

### APPLICATION DATE

2007

### APPLICATION SITUATION

One of a series of large belts used to bring coal from the coal yard to the plant.

### PROBLEM

Belt developed a large burn hole. This rendered the belt unusable until fixed.

### PRODUCTS

Belzona® 2111 (D&A Hi-Build Elastomer)

### SUBSTRATE

Rubber

### APPLICATION METHOD

Belt was repaired according to Belzona Know-How System Laflet SHM-1

### BELZONA FACTS

The company that usually repairs their belts takes a long time to respond to service requests and are very expensive. They needed the repair completed quickly. The belt was repaired in a matter of hours and the plant now uses Belzona for all belt repairs.
