BELZONA SEALS POROUS TANK WELDS

CUSTOMER

Herbicide Manufacturer- Bushton, Kansas, USA

APPLICATION DATE

July 2007

APPLICATION SITUATION

Stainless steel herbicide tank

PROBLEM

Porous welds in stainless steel tank. Herbicide is expensive and very slippery. Not only was leaking tank an environmental hazard but a general safety hazard as well.

PRODUCTS

Belzona® 4301 (Magma CR1 Hi-Build)

SUBSTRATE

Stainless Steel

APPLICATION METHOD

Application carried out in accordance with Belzona Know-How System Leaflet TCC-1. The tank was drained and rinsed. A stainless steel tank cleaner was used to clean the surface. After preparing the surface, two coats of Belzona® 4301 were applied to the weld seams.

BELZONA FACTS

Belzona sealed the leaking tanks helping the owner avoid fines and lawsuits.Belzona® 4301 is resistant to a wide variety of chemical and was well suited for this repair.
