

BELZONA SEALS & WEATHERPROOFS ASBESTOS SCHOOL ROOF

CUSTOMER

School, Galashiels, Scotland

APPLICATION DATE

July 2013

APPLICATION SITUATION

Approximately 500 m² asbestos roof on a school building.

PROBLEM

The roof had been leaking for years. Patch repairs had been tried but the water always found another way in. Client requested a complete and long term solution.

PRODUCTS

Belzona® 3111 (Flexible Membrane)

SUBSTRATE

Asbestos

APPLICATION METHOD

Application was carried out in accordance with Belzona Know-How System Leaflet RPA-1. The roof was power washed with a special filter system used to collect the 'run off'. Belzona® 3111 system was then applied to the entire roof area.

BELZONA FACTS

Removal and replacement of the roof would have run into hundreds of thousands of pounds. Belzona system was able to provide a long term water/weather proofing solution whilst encapsulating the corrugated asbestos.
