

BELZONA PROTECTS WASHING POWDER HOPPERS

CUSTOMER

Czech Republic

APPLICATION DATE

February 2017

APPLICATION SITUATION

Hoppers supplying storage bins in the manufacture of washing powder

PROBLEM

The citric acid content of the washing powder was causing erosion-corrosion to the supply hoppers

PRODUCTS

Belzona 1331

SUBSTRATE

Carbon steel

APPLICATION METHOD

The application was carried out in accordance with Belzona System Leaflet TCC-3. Belzona 1331 was applied by brush.

BELZONA FACTS

A Belzona coating was chosen as the Customer sought after a long-term corrosion protection against citric acid, whilst also having the durability to withstand dry abrasion from powder.
