

## BELZONA COLD BONDING SYSTEM FOR WATER SPRINKLER TANK

**CUSTOMER**  
Indonesia

**APPLICATION DATE**  
2018

**APPLICATION SITUATION**  
Customer required installation of a fire protection system without the use of hot work

**PROBLEM**  
Oil reservoirs are old reservoirs where there is no hydrants attached to the tank wall, therefore a cold connection method is needed to avoid the danger of fire when adding the design to the tank.

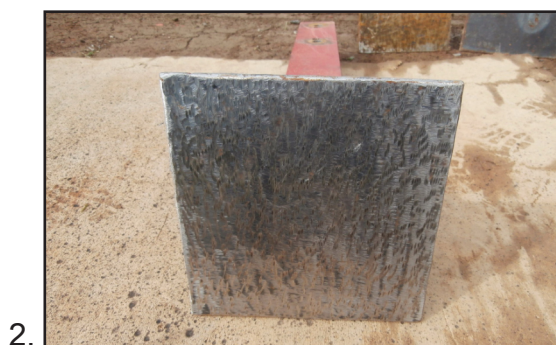

**PRODUCTS**  
1161 (Super UW Metal)

**SUBSTRATE**  
Carbon Steel

**APPLICATION METHOD**  
The application was carried out in accordance with Belzona Know-How System Leaflet (TCC-6 and VPF-15).

**BELZONA FACTS**  
The customer is satisfied with the application done for their water sprinkler tank, the product is easy apply and use, with no specialist equipment required and application was done in-situ.
