

BELZONA REPAIRS A FLOATING HOSE

CUSTOMER

Holyhead, Wales

APPLICATION DATE

July 2017

APPLICATION SITUATION

Fuel transport hoses offshore

PROBLEM

The rubber reinforced covers and flotation/insulation on fuel hoses was damaged. Thought to be caused by the ships propeller during fuel loading and unloading.

PRODUCTS

Belzona® 2211 (MP Hi-Build Elastomer)

SUBSTRATE

Rubber

APPLICATION METHOD

The repair was carried out in accordance with Belzona Know-How System Leaflet SOS-12.

BELZONA FACTS

The application was completed at a fraction of the cost of a replacement hose. The customer wanted to use Belzona because previous applications had surpassed life expectancy expectations.
