

## BELZONA RECASTS NEW PERIMETER EXPANSION JOINTS FOR OUTDOOR POOL

### CUSTOMER

Coquitlam, BC

### APPLICATION DATE

April 2015

### APPLICATION SITUATION

The expansion joints of an outdoor pool

### PROBLEM

All expansion joints were replaced as part of a major refurbishment project.

### PRODUCTS

Belzona 2211 (MP Hi-Build Elastomer)

Belzona 2221 (MP Fluid Elastomer)

### SUBSTRATE

Concrete

### APPLICATION METHOD

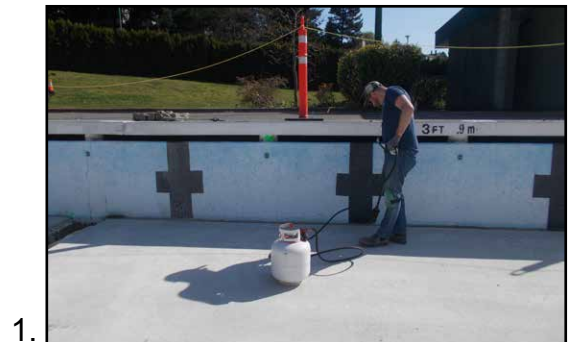

The application was carried out in accordance with Belzona Know-How System Leaflet FPA-6.

### BELZONA FACTS

Belzona refurbished a similar outdoor pool in 2010. After 5 years of maintenance free service, the City Council decided that the money was well spent and commissioned a 2nd facility for the same treatment.

### PICTURES

1. Joints needed to be dried out prior to casting
2. Joints masked off for a neat and tidy finish
3. Injection of Belzona 2221 into expansion joint slot
4. Completed joint.
