

BELZONA STOPS COOLING TOWER LEAKS

CUSTOMER

Independent Power Plant in South Texas, USA

APPLICATION DATE

March 2005

APPLICATION SITUATION

Plant planned a short outage to seal the water leaks. Belzona needed to be there non-stop to supervise these repairs.

PROBLEM

Leaks in expansion joints were causing losses of valuable cooling water. Client needed a cost effective way to stop the leaks.

PRODUCTS

Belzona 2211 (MP Hi-Build Elastomer)

Belzona 2221 (MP Fluid Elastomer)

Belzona 2911 (Elastomer QD Conditioner)

SUBSTRATE

Concrete

APPLICATION METHOD

Remove old sealants. Grit blast and insert backer. Apply Belzona 2911 and Belzona 2211 to verticals and Belzona 2221 to horizontals.

BELZONA FACTS

The use of Belzona elastomers was cost effective over alternative materials. Belzona know how allowed for a faster repair than alternatives.
