

Louisiana Channel's the Belzona 5821

ID: 10044

Industry: Power
Application: HEX-Heat Exchangers
Substrate: Carbon steel
Products: Belzona 1121 (Super XL-Metal), Belzona 5821

Customer Location: Lena Louisiana
Application Date: October 2025

Problem

Corroded and pitted channel head, divider plate and end cover

When the channel head was delivered

The channel and divider plate rebuilt with Belzona 1121 and protected with two coats of Belzona 5821

End plate after Belzona 5821 was applied

Top of Channel head

Application Situation

Belzona offered a quick turnaround less than a week compared to several weeks waiting on a new one to come in

Application Method

We grit blasted to a 3 mil angular profile. Applied Belzona 1121 to smooth substrates and fill pitting. Brushed on two coats of Belzona 5821 for protection.

Belzona Facts

Belzona was able to save them several weeks of waiting on a new part to be built and over \$10,000 by coating.
