

BELZONA REPAIR TO VERTICAL EXPANSION JOINT COMES OF AGE

ID: 1076

Industry: Buildings & Structures

Application: WPA-Wall Problem Areas

Substrate: Concrete

Products: * Belzona® 4111 (Magma Quartz) ,
* Belzona® 3111 (Flexible Membrane) ,

Customer Location: University Hospital

Application Date: 1987

Problem

The expansion joint material used to seal the long vertical joint had become a perennial problem. The caulking material used could not withstand the constant movement.

Photograph Descriptions

- * General view of 140-ft wall and problem joint. ,
- * The spalled edges of the concrete were rebuilt with Belzona® 4111 before applying the Belzona® 3111 (Flexible Membrane System). ,
- * Complete application - The final coat was tinted for a closer match to the concrete. ,
- * Picture taken in 2008 showing present condition of the 21-year-old application. ,

Application Situation

Vertical expansion joint between two cast concrete walls.
