

SCREED BOX MAKES SCREEDING WITH BELZONA EASIER

ID: 1204

Industry: *General Industry*

Customer Location: *Pipe Mill, Alabama USA*

Application: *FPA-Floor Problem Areas*

Application Date: *2006*

Substrate: *Concrete*

Products: *<div>Belzona® 4131 (Magma Screed)</div><div>Belzona® 2221 (MP Fluid Elastomer)</div>*

Problem

Old coating needed removing and the floor recoating. The floor had to be level for the air pallet jack to work properly.

Photograph Descriptions

* Application to the floor starting after completing surface preparation , * Close up of the screed box , * Applying the Belzona® 4131 in strips and troweling smooth , * Air pallet jack going over the Belzona® 4131 ,

Application Situation

An air pallet jack was losing its seal when going across the floor.

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflets FPA-1, -5 & -6. Screed box was used to install Belzona® 4131 at 1/4 inch over the entire floor. The expansion joint was sealed flush with the floor using Belzona® 2221.

Belzona Facts

Quick cure times and superior compressive strength was the reason for choosing Belzona.
