## Photograph Descriptions

\* 1. & 2. Applying Belzona Flexible Membrane ,

\* 3. Spraying the top of the dome ,

\* 4. The roof in 2006 ,

## Application Situation

Domed roof on Church.

## Application Method

Application was carried out in accordance with Belzona Know-How System leaflet RPA-1. Spray application was used to aid application.

## Belzona Facts

Belzona has provided an attractive and economical solution that effectively sealed the roof for the church. The original tar roof proved unsatisfactory. Belzona® 3111 was applied in the mid 1980s and proved to be a successful solution for approximately 20 years. The Church was so happy with the Belzona solution that they decided to restore the roof with a new application of Belzona® 3111 in 2004. The church continues to look to Belzona for solutions for its structural problems.
