

BELZONA RESEATS NEW RUDDER BEARING

ID: 1480

Industry: *Marine*
Application: *SOS-Ships and Offshore Structures*

Customer Location: *Dockyard, Bulgaria*
Application Date: *June, 2010*

Substrate: *Cast iron and Orkot bearing*
Products: ** Belzona® 1221 (Super E-Metal),*
** Belzona® 1321 (Ceramic S-Metal),*

Problem

Severe corrosion and impact wear led to destruction of the old bronze bearing and ovality of its housing. As a result a new Orkot bush bearing was manufactured and had to be reseated in the irregular bearing housing.

Photograph Descriptions

- * Bearing housing after blasting ,
- * Orkot bearing inserted and fixed ,
- * Injection procedure in progress ,
- * Completed application ,

Application Situation

Ships rudder pintle bearing

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet SOS-9. The injection of Belzona® 1321 was done through injection ports drilled in the bearing wall.

Belzona Facts

Bonding the bush in place with Belzona is a proven application and is time and cost saving procedure in comparison with traditional repair which would have involved welding and boring.
