

BELZONA BRIDGES A SLIPPERY PROBLEM

ID: 1570

Industry: Buildings & Structures
Application: FPA-Floor Problem Areas
Substrate: Wood
Products: * Belzona® 4411 (Granogrip) ,

Customer Location: City of Paris, France
Application Date: 2000 & 2003

Problem

During winter when wet and icy conditions occurred, slipping and falls resulted to pedestrians using the bridge.

Photograph Descriptions

- * Passerelle Solferino ,
- * Non-disruptive application in 2000 ,
- * Content users in 2005 ,
- * Close-up still perfect in 2007 ,

Application Situation

Footbridge clad in exotic wood (similar to decking)

Application Method

The application was carried out using a modified version of Belzona Know-How System Leaflet FPA-8.

Belzona Facts

The bridge links the famous Louvre and Orsay Museums and has regular traffic. A test was carried out in 2000 and following its success, the full bridge was treated in 2003 with a total of 19661m of grip system. Its performance can easily be viewed and assessed by all.
