Problem

The existing grip system had worn away over the years.

Photograph Descriptions

* Safety Grip areas masked off Close up of the ongoing application Application in progress The application completed ,

Application Situation

This application was in the Science Block which is a high pedestrian area.

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet FPA-8.

Belzona Facts

This is a very high pedestrian area with 190 steps. They required a high performance positive grip system which would also be easy to clean. In addition, a fast curing system was required so that disruption was minimized.
