BELZONA PROVIDES POSITIVE GRIP SYSTEM ON DRIVE ROLLERS

ID: 2

Industry: Chemical & Petrochemical Customer Location: Chemical manufacturer in Louisiana

Application: SHM-Solids Handling Machinery Application Date: August 1995

Substrate: Steel

Products: * Belzona® 1321 (Ceramic S-Metal),

* Belzona® 9221 (Surefoot Aggregate White),

Problem

Non-skid tape was used on the drive rollers, but the weight of the containers peeled off the tape. Every 4 or 5 days the assembly line had to be stopped to repair the rollers.

Photograph Descriptions

- * A blasted roller ready for application of Belzona® 1321. ,
- * A single completed roller with sproket. ,
- * A series of rollers were done.,

Application Situation

Drive roller for conveyor system that propels 30-gallon drums and 5-gallon plastic buckets.

Application Method

The application was carried out in accordance with Belzona Know-How Leaflet SHM-12.

Belzona Facts

The Belzona Solution allows the conveyor system to run on a more continuous basis and has eliminated weeks of unscheduled downtime. The facility has realized increased production and sustained savings.
