**Application:** TCC-Tanks and Chemical Containment Areas  
**Substrate:** Steel  
**Products:** \* Belzona® 1591 ,

**Customer Location:** Chemical Plant in Scotland  
**Application Date:** October 1998

## Problem

*Erosion/corrosion caused by steam together with chlorides and other impurities.*

## Photograph Descriptions

- \* General view of the Stripper Tower ,
- \* Application underway in the confined space of the Tower ,
- \* Application continues ,

## Application Situation

Stripper Tower used to clean waste-water. Steam is introduced at 180°C to remove hydrocarbons and other contaminants.

## Application Method

Application was carried out at a specialist applicators' works in accordance with Belzona Know-How Leaflet TCC-5.

## Belzona Facts

Original glass flake lining failed and protection required to keep the tower in service to next major shut-down.
