BELZONA PROTECTS DUCTWORK ELBOW

ID: 2485

Industry: Pulp & Paper Customer Location: Paper Processing Industry, Gateshead,

UK

Application: SHM-Solids Handling Machinery Application Date: October 2011

Substrate: Steel Pipe

Products: * Belzona® 1111 (Super Metal),

* Belzona® 1812 (Ceramic Carbide FP),

Problem

The ducting had been installed early 2011 and due to the nature of their process/products the pipe elbows had worn within a short period of time.

Photograph Descriptions

- * Holed elbow ,
- * Plates bonded over holes using Belzona® 1111 ,
- * Internal bend coated with Belzona® 1812 ,
- * Duct elbow back in service,

Application Situation

Ductwork elbows in pneumatic processed paper handling system.

Application Method

Application was carried out in accordance with Belzona System Leaflet SHM-8. The holed elbows were repaired using cut to size steel plates, formed and bonded over the holes using Belzona® 1111. The internal bend section was then lined with Belzona® 1812 to provide optimum abrasion resistance.

Belzona Facts

Pipe elbows have been and continue to be protected with Belzona, increasing the working life of the system. As a result the customer has saved money on replacement costs and downtime.
