

CREATING FLEXIBLE GASKET WITH BELZONA® 2131

ID: 263

Industry: General Industry
Application: GSS-Gaskets, Seals and Shims
Substrate: Stainless steel
Products: * Belzona® 2131 (D&A Fluid Elastomer) ,

Customer Location: Aluminium producer in Holland
Application Date: July 2001

Problem

Electrolytic corrosion on flange face.

Photograph Descriptions

- * The pipe section ,
- * The corroded flange face ,
- * Former in place and Belzona® 2131 injected ,
- * The Belzona gasket after removal of the former ,

Application Situation

Stainless steel sea water inlet

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflets GSS-1 and GSS-8.

Belzona Facts

A steel former was used to obtain correct dimensions and Belzona® 2131 applied using injection techniques. A perfectly fitting 10mm thick gasket was formed that prevents future galvanic corrosion.
