Photograph Descriptions

- * Caustic leaking from weld seams ,
- * Surface preparation using MBX Bristle-blaster ,
- * First layer of Belzona® 1111 being applied incorporating Reinforcement Tape ,
- * Finished application ,

Application Situation

Leaking caustic tank

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet TCC-1.

Belzona Facts

Re-welding the seams would have been costly, disruptive to production and ineffective. There wasn't sufficient budget to replace.
