

BELZONA GIVES THIS NEW COMBISORTER A MUCH LONGER LIFE

ID: 347

Industry: Pulp & Paper

Application: SHM-Solids Handling Machinery

Customer Location: Pulp and paper mill in the U.K.

Application Date: August 2000

Substrate: Steel

Products: * Belzona® 1811 (Ceramic Carbide),

Problem

This particular facility had specified that their new combisorter should be protected with Belzona® 1811 (Ceramic Carbide) rather than the traditional Basalt tiles.

Photograph Descriptions

- * Combisorter prior to grit blasting ,
- * Combisorter with a three-mil blasted profile ,
- * Applying Belzona® 1811 to the wear surface ,
- * Completely lined combisorter with Belzona® 1811 (Ceramic Carbide) ,

Application Situation

Internal wear surface of new combisorter unit.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet SHM-11.

Belzona Facts

It is a lot quicker and more cost effective to line the unit with Belzona® 1811 rather than to retile, which often takes a significant amount of specialized labor.
