

BELZONA PROTECTS CHEMICAL VESSELS FROM NEW

ID: 421

Industry: Chemical & Petrochemical
Application: TCC-Tanks and Chemical Containment Areas
Substrate: Steel
Products: * Belzona® 4311 (Magma CR1) ,

Customer Location: Chemical Plant in Italy
Application Date: September 2001

Problem

The vessel manufacturer wanted the longest service life possible and so used a Belzona coating to protect against corrosion.

Photograph Descriptions

- * The vessel before preparation. ,
- * Belzona® 4311 being applied. ,
- * The completed application was like a work of art! ,

Application Situation

Vessel containing a mixture of Toluene, Benzene and other aromatic fluids in water at ambient temperature.

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet TCC-3. In order to ease application, the vessel was rotated to remove the need for overhead work.

Belzona Facts

The customer was so satisfied with this application that other vessels operating in this plant have now been coated.
