

# BELZONA EXTENDS LIFE OF JET VALVE

ID: 5205

Industry: Mining & Quarrying

Application: CEP-Centrifugal Pumps

Substrate: Cast Iron

Products: \* Belzona 1311 (Ceramic R Metal) ,  
\* Belzona 1812 (Ceramic Carbide FP) ,

Customer Location: BC, Canada

Application Date: January 2004

## Problem

*These jet valves would generally last about 5-6 months before they would wear through from the air / sand / water mixture pumped through them.*

## Photograph Descriptions

- \* View of the volute area ,
- \* Showing preparation in progress of the eroded area ,
- \* Application of the Belzona material in progress ,
- \* Application of the Belzona 1812 in progress ,

## Application Situation

Worn jet valves

## Application Method

Application carried out in accordance with Belzona Know-How System Leaflet CEP-1

## Belzona Facts

These air valves cost approximately \$ 20,000.00 each. The Belzona repair cost less than 5% of the original cost and showed little signs of wearing out after a 9 month inspection.
