

CLARIFIER HEADWORKS GET QUICK FIX WITH BELZONA

ID: 5702

Industry: Water / Wastewater

Customer Location: Waste Treatment Plant, Northern Texas, USA

Application: TCC-Tanks and Chemical Containment Areas

Application Date: 2014

Substrate: Concrete

Products: * Belzona 4111 (Magma-Quartz),
* Belzona 5831 (ST-Barrier),

Problem

The headworks of a clarifier were covered with a plate to reduce H₂S odor. This caused chemical attack to the concrete.

Photograph Descriptions

- * Blasting the headworks ,
- * Bugholes filled with Belzona 4111 ,
- * Application of the first coat of Belzona 5831 ,
- * Application of the final coat of Belzona 5831 ,

Application Situation

Chemical attack to headworks of clarifier.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet TCC. The concrete was blasted and bugholes were filled with Belzona 4111. Two coats of Belzona 5831 were then applied.
