

BELZONA REFURBISHES LOADING DOCK

ID: 6199

Industry: Buildings & Structures

Customer Location: Business complex, Brisbane,
Queensland, Australia

Application: FPA-Floor Problem Areas

Application Date: May 2009

Substrate: Concrete

Products: * Belzona 5231 (SG Laminate),
* Belzona 4411 (Granogrip),

Problem

The Loading dock and car park were old and in need of a facelift as all of the original coating had been worn away.

Photograph Descriptions

* 1. The original condition of the floor area 2. Surface preparation in progress 3. A few small touch ups 4. The finished application showing the coated floor and reinstated lines, wording and chevrons ,

Application Situation

Loading dock and car park of a multi use business complex

Application Method

The application was carried out in accordance with Belzona System Leaflets FPA-4 and FPA-8. The floor area was prepared using a dustless diamond grinder then coated with 2 coats of the Belzona 5231. The line markings, chevrons and wording were then reinstated using Belzona 4411 in a single coat of safety yellow.

Belzona Facts

Belzona materials were chosen due to their ease of application, proven longevity and incorporated grip system that provides a safer and more durable finish than conventional floor paints.
