

Belzona Provides Internal Lining to New Slurry Thickener

ID: 7527

Industry: General Industry

Application: SHM-Solids Handling Machinery

Customer Location: Chemical Plant, Italy

Application Date: September 2017

Substrate: Carbon Steel

Products: * Belzona 1593 ,

Problem

Request for internal protective coating, resistant to high temperature chemical attack.

Photograph Descriptions

- * 1. Internal view ,
- * 2. DFT Inspection ,
- * 3. Spark test ,
- * 4. Completed application ,

Application Situation

New construction slurry thickener 5 meters in diameter to be used to improve/renew part of production in a chemical plant.

Application Method

Application carried out in accordance with Belzona System Leaflet SHM-13.

Belzona Facts

Belzona 1593 proved to be the only product able to withstand the required service, allowing the customer to avoid high production costs in fine alloys, simplifying and decreasing production times of the equipment
