Belzona Repairs Voith Schneider Unit

Industry:	Marine
Application:	SOS-Ships and Offshore Structures
Substrate:	Cast steel
Products:	* Belzona 1311 (Ceramic R Metal) ,
	* Belzona 1321 (Ceramic S Metal) ,

Customer Location: Gourock, Scotland Application Date: April 2018

Problem

Eorsion/corrosion damage meant the unit no longer functioned correctly. Replacement of the unit would total around £120,000

Photograph Descriptions

- * 1. Voith unit in blast booth ,
- * 2. Close up of metal loss,
- * 3. Sealing face built up ,
- * 4. Machining of product,

Application Situation

A Voith Schneider propulsion unit was experiencing erosion/corrosion from sand/silt & sea water in service.

Application Method

The face of the unit was first grit blasted to SA2.5 & 75 microns. The face of the casing was then built up with Belzona 1311 before being overcoated with Belzona 1321. The inner bore was a sealing face, it was built up with Belzona 1311 & then machined down to a close tolerance.
