Belzona Chocking Compound Stabilizes Lathe

ID: 7725

Industry:Pulp & PaperCustomer Location: PolandApplication:GSS-Gaskets, Seals and ShimsApplication Date: March 2018

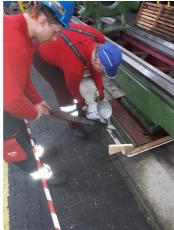

Substrate: Concrete

Products: * Belzona 7111 (Industrial grade),

Problem

Lathe in a paper factory required a solution to withstand compressive load of machinery and reduce vibrations.

Photograph Descriptions

- * The new lathe to be chocked.,
- * The application is underway.,
- * The completed solution.,

Application Situation

Newly installed lathe at a paper manufacturer required a solid foundation.

Application Method

The application was carried out in accordance with a modified version of Belzona Know-How System Leaflet GSS-13.

Belzona Facts

The Belzona solution secured the equipment for the long-term. Normally the machine would be bolted to the floor, which doesn't prevent corrosion or damage to the baseplate due to vibration.
