

BELZONA WEATHERPROOFS INSULATED ROOFTOP DUCTING

ID: 861

Industry: *Buildings & Structures*

Customer Location: *Ivy League Medical School*

Application: *HEX-Heat Exchangers*

Application Date: *Summer 2004*

Substrate: *Blown on Urethane insulation with waterproof mastic*

Products: *Belzona® 5131 (EG Cladding)*

Problem

Original protection no longer water-tight. Insulation was wet and water was leaking into the building. CUI was feared.

Photograph Descriptions

* Degraded insulation on ducts , * Degraded insulation at building interface , * Recoated and protected with Belzona , * Summer 2007 still as good as new! ,

Application Situation

Heated and cooled air roof top ducts.

Application Method

Application carried out in accordance with Belzona system Leaflet HEX-8

Belzona Facts

The original plan was to remove all wet existing insulation and re-insulate and waterproof over 200 feet of 60 inch carbon steel ducts.

Micro-porosity of Belzona system allowed existing insulation system to dry out so restoring protection and efficiency.

System still excellent 3 years on.
