- * Completed application,

Application Situation

Agitator blades in crystalization tank which is an important component of the Flue Gas Desulfurization (FGD) unit.

Application Method

Application was carried out in accordance with Belzona Know-How System leaflet SHM-9.

Belzona Facts

By choosing to repair the blades in-situ instead of replacement, tremendous financial savings were realized. This allowed the maintenance planners additional budgetary monies to repair even more blades in an additive tank that were repaired during the same outage.
