Belzona Facts

This application occurred in 1973, which makes this a successful repair that is 35 years old. Replacement costs for a new unit is approximately \$350,000, and a Belzona repair today would cost the customer about \$25,000. For this one low cost, the customer saved replacement costs and downtime for many years. This particular unit is set for retirement in a January 2009 turnaround.
