

BELZONA PROTECTS LARGE RIVER PUMP

ID: 1179

Industry: Chemical & Petrochemical

Customer Location: Petrochemical Plant, South Louisiana
U.S.A.

Application: CEP-Centrifugal Pumps

Application Date: August, 2008

Substrate: Cast Iron

Products: * Belzona® 1111 (Super-Metal) ,
* Belzona® 1321 (Ceramic S-Metal) ,

Problem

Pump was subject to erosion due to solids drawn from the river.

Photograph Descriptions

- * Scale of the pump clearly evident ,
- * Fully restored suction diffuser ,
- * Work beginning on restoration of impeller ,
- * Fully protected impeller ,

Application Situation

Main cooling water pump handling river water.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet CEP-1, CEP-3 and CEP-5.

Belzona Facts

The cost of a replacement pump is \$250,000 and delivery time from the manufacturer is 6 months. Belzona was able to repair the pump and have it back in service within a week and will last longer than a new pump due to the erosion corrosion resistance of Belzona® 1321.
