

BELZONA KEEPS AIRPORT SAFE FOR TRAVELLERS

ID: 1196

Industry: Buildings & Structures Customer Location: Airport, Alabama U.S.A.

Application: FPA-Floor Problem Areas Application Date: 2000

Substrate: Concrete

Products: * Belzona® 2221 (MP Fluid Elastomer),

Problem

Old sealant was coming out of the joints. Steel plates over the joints did not alleviate the safety concerns.

Photograph Descriptions

- * The passenger terminal,
- * One of the application areas,
- * Problem joint in front of escalator,
- * Completed Belzona® 2221 application,

Application Situation

Expansion joints in passenger terminal.

Application Method

Application carried out in accordance with Belzona Know-How System Leaflet FPA-6.

Belzona Facts

Joints still in service after 8 years. Excellent adhesion ensures no trip hazard created by failed sealant.
