# **Photograph Descriptions**

- \* General view of the absorber tower. ,
- \* Work underway inside the absorber. ,
- \* Aplication of Belzona® 1391 by applicator. ,

### **Application Situation**

Absorber tower used to remove CO2 from waste gases.

### **Application Method**

Application was carried out in accordance with Belzona System Leaflets TCC-5 & HEX-3.

# **Belzona Facts**

Belzona chosen to repair critical areas as alternative to re-plating which was very much more costly and would have taken four times as long. Structure planned to be replaced after six months. In fact, replacement would have delayed for 12 months at which time Belzona<sup>®</sup> 1391 was still in perfect condition. Belzona<sup>®</sup> 1391 used on new absorber tower.
