BELZONA UPGRADE TO FLOOR IN CHOCOLATE FACTORY

ID: 1588

Industry: General Industry Customer Location: Chocolate manufacturer, Derbyshire, UK

Application: FPA-Floor Problem Areas Application Date: December 2009

Substrate: Concrete

Products: * Belzona® 5231 (SG Laminate),

Problem

The existing coating had begun to deteriorate and sections of the main walk area had been removed exposing the concrete substrate beneath. This was not only unsightly; it also represented a health risk as staff were unable to clean the floor area adequately as food particles become trapped in the surface. The area also presented a considerable slip risk.
