## BELZONA UPGRADE TO FLOOR IN CHOCOLATE FACTORY

ID: 1588

Industry: General Industry Customer Location: Chocolate manufacturer, Derbyshire, UK

Application: FPA-Floor Problem Areas Application Date: December 2009

Substrate: Concrete

Products: \* Belzona® 5231 (SG Laminate),

### Problem

The existing coating had begun to deteriorate and sections of the main walk area had been removed exposing the concrete substrate beneath. This was not only unsightly; it also represented a health risk as staff were unable to clean the floor area adequately as food particles become trapped in the surface. The area also presented a considerable slip risk.
