

Belzona PROTECTS POTABLE WATER TANKS

ID: 1612

Industry: Buildings & Structures

Application: CEP-Centrifugal Pumps

Substrate: Aluminium

Products: * Belzona[®] 5811 DW(DW Immersion Grade) ,

Customer Location: Shipyard, Mallorca, Spain

Application Date: December 2010

Problem

Two aluminium potable water tanks were suffering pitting corrosion that was decreasing the wall thickness. The substrate had to be protected with a potable water approved coating.

Photograph Descriptions

- * General view of the boat ,
- * Corrosion in the tank ,
- * Coating with Belzona[®] 5811DW ,
- * Final aspect after application ,

Application Situation

Potable water supply system of the boat.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet TCC-5.

Belzona Facts

Belzona products safely protected the tanks from corrosion and allowed a fast and easy back to service with an in-situ application. This avoided replacement of the equipment, making significant cost savings.
