# **BELZONA REPLACES FAILED TANK BASE SEAL**

Industry:	Chemical & Petrochemical
Application:	TCC-Tanks and Chemical Containment
	Areas
Substrate:	Steel & concrete
Products:	* Belzona ® 4131 (Magma-Screed) ,
	* Belzona <sup>®</sup> 3111 (Flexible Membrane System)

Customer Location: *Chemical plant, UK* Application Date: *November 2004* 

# Problem

Original seal had cracked and allowed moisture to penetrate beneath tank base. Problem exacerbated by poor water shed leading to external corrosion.

## **Photograph Descriptions**

- \* Close up showing failure of original seal.,
- \* Fillet of Belzona® 4131 applied ,
- \* Application of Belzona 3111<sup>®</sup> System underway. ,
- \* Application completed. ,

#### **Application Situation**

Base of chemical storage tank

# **Application Method**

Application was carried out in accordance with Belzona Know-How System Leaflet GSS-3 and TCC-9.

# **Belzona Facts**

Traditional sealing materials had failed due to lack of flexibility. Improved water shed created by applying fillet of Belzona<sup>®</sup> 4131. Belzona<sup>®</sup> 3111 has a proven track record in waterproofing tank bases.
