

BELZONA REPAIRS DAMAGED FIRE ESCAPE STEPS AT SCHOOL

ID: 2933

Industry: Buildings & Structures

Application: FPA-Floor Problem Areas

Substrate: Steel chequer plate

Products: * Belzona® 1111 (Super Metal) ,
* Belzona® 5811 (Immersion Grade) ,

Customer Location: Warwickshire, UK

Application Date: September 2011

Problem

Due to age and weathering the steel plates had become holed and badly corroded creating a safety hazard.

Photograph Descriptions

- * Corroded & holed steps ,
- * Surface preparation ,
- * Holed steps repaired with Belzona® 1111 ,
- * Completed steps with Belzona® 5811 applied and nosings blinded with Surefoot Aggregate ,

Application Situation

Steel fire escape steps

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet FPA-8. After surface preparation was carried out, the small holed areas were rebuilt with Belzona® 1111. The steps were then overcoated with Belzona® 5811 and Belzona® 9221 (Surefoot Aggregate) blinded into the step noses.

Belzona Facts

The school looked into replacing the steel plates at a cost of over £12,000 for the two fire escapes. The Belzona repair was carried out in one week at a fraction of the cost.
