

BELZONA STAVES OFF REPLACEMENT COST ASSOCIATED WITH THIS CHIPPER

ID: 307

Industry: Pulp & Paper

Application: SHM-Solids Handling Machinery

Customer Location: Lumber Company in California USA

Application Date: 1994

Substrate: Steel

Products: * Belzona® 1811 (Ceramic Carbide),

Problem

This unique chipper from Germany has 48" knives that are responsible for cutting the lumber into the appropriate chip size. Over a period of time, the knife pockets wear, causing unwanted fines and off-size chips.

Photograph Descriptions

- * View of the Klockner Chipper apparatus ,
- * Rotor assembly with worn pockets ,
- * Knives removed from unit ,
- * Applying Belzona® 1811 to pocket profile ,

Application Situation

Klockner Rotary Chipper knife pocket wear.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet SHM-13.

Belzona Facts

Welding can cause localized heat stresses to the rotor assembly and replacement units have long procurement times since they have to be manufactured in Germany.
