

# BELZONA PROTECTS CHEMICAL VESSELS FROM NEW

ID: 421

**Industry:** Chemical & Petrochemical  
**Application:** TCC-Tanks and Chemical Containment Areas  
**Substrate:** Steel  
**Products:** \* Belzona® 4311 (Magma CR1) ,

**Customer Location:** Chemical Plant in Italy  
**Application Date:** September 2001

## Problem

The vessel manufacturer wanted the longest service life possible and so used a Belzona coating to protect against corrosion.

## Photograph Descriptions

- \* The vessel before preparation. ,
- \* Belzona® 4311 being applied. ,
- \* The completed application was like a work of art! ,

## Application Situation

Vessel containing a mixture of Toluene, Benzene and other aromatic fluids in water at ambient temperature.

## Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet TCC-3. In order to ease application, the vessel was rotated to remove the need for overhead work.

## Belzona Facts

The customer was so satisfied with this application that other vessels operating in this plant have now been coated.
