Problem

The steel plate on the coal director was worn through and in need of replacement.

Photograph Descriptions

- * Surface preparation ,
- * Product was kept warm with the help of this steam pipe ,
- * Completed application ,

Application Situation

Coal director for pulverizer

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet SHM-13.

Belzona Facts

New steel was put in place. Steel was hand prepared and Belzona® 1812 material was put down with 1/8" thickness. This Belzona system provides excellent abrasion resistance, while ensuring the coal moves as required.
