

BELZONA SEALS & WEATHERPROOFS ASBESTOS SCHOOL ROOF

ID: 4731

Industry: Buildings & Structures
Application: RPA-Roof Problem Areas
Substrate: Asbestos
Products: * Belzona 3111 (Flexible Membrane) ,

Customer Location: School, Galashiels, Scotland
Application Date: July 2013

Problem

The roof had been leaking for years. Patch repairs had been tried but the water always found another way in. Client requested a complete and long term solution.

Photograph Descriptions

* 1. Before power wash 2. After surface preparation 3. Applying the Belzona 3111 Membrane system 4. Finished section of roof ,

Application Situation

Approximatley 500m2 asbestos roof on a school building.

Application Method

Application was carried out in accordance with Belzona System Leaflet RPA-1. The roof was power washed with a special filter system used to collect the 'run off'. Belzona 3111 system was then applied to the entire roof area.

Belzona Facts

Removal and replacement of the roof would have run into hundreds of thousands of pounds. Belzona system was able to provide a long term water/weather proofing solution whilst encapsulating the corrugated asbestos.
