

# BELZONA ADDS SAFETY TO SWIMMING POOL STAIRS

ID: 4788

**Industry:** Buildings & Structures  
**Application:** FPA-Floor Problem Areas  
**Substrate:** Stainless steel  
**Products:** \* Belzona 1321 (Ceramic S Metal) ,

**Customer Location:** Swimming Pool, Nova Scotia, Canada  
**Application Date:** September 2009

## Problem

*Because of the corrosive environment stainless steel was used for the construction and unfortunately the base was very slippery.*

## Photograph Descriptions

- \* The surfaces of the stainless steel landings were grit blasted to ensure good adhesion to the metal surface ,
- \* The area was masked off in a chevron style pattern to ensure adequate safety for the multi directional traffic the landing would be subjected to ,
- \* The completed application installed at the base of the diving tower. ,

## Application Situation

The swimming pool facility was upgrading the access stairs to the diving tower.

## Application Method

Application was carried out in accordance with a modified version of Belzona Know-How System Leaflet FPA-8.

## Belzona Facts

Belzona non-slip safety systems have been successfully applied in a wide variety of immersed and semi immersed situations. The normal stick-on systems were considered but they did not have the life expectancy of the Belzona system.
