Problem

Joints were leaking and external protection of the concrete required.

Photograph Descriptions

- * General view of the Oil Skimmer. ,
- * Belzona® 4211 being used to seal leaks. ,
- * Joints smoothed out with Belzona® 1111 prior to coating. ,
- * Completed application with Belzona® 5811 applied to entire surface of the pipeline. ,

Application Situation

Concrete pipe discharging the clean water from the oil skimmer into the sea.

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet VPF-11b. After sealing leaks with Belzona® 4211, Belzona® 1111 used to smooth out joints, then Belzona® 5811 applied to protect all external surfaces of the pipeline.

Belzona Facts

Belzona® 4211 effectively sealed live leaks without interrupting operation of the skimmer which prevents oil pollution of the sea.
