Application Situation

Multi-stage water pump.

Application Method

The pump casings and impellers were grit blasted and then two coats of Belzona 1341 were applied. The application was carried out in accordance with Belzona Know-How System Leaflets CEP-10.

Belzona Facts

With a 7% increase in efficiency, the city can expect to see a full return of the coating cost in about 7 months. Since the pumps run in clean water, they can expect a service life of over 25 years.
