- * General view of the pump ,
- * The corroded discharge casing ,
- * Applying Belzona® 1311 to the prepared surface ,
- * Application complete ,

Application Situation

Circulating water pump

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet CEP-5.

Belzona Facts

Belzona Polymers allow for a perfect repair, completed in only one day, keeping the power station on schedule. Welding was considered as an alternative method of repair but this would not prevent the same damage from occurring in the future. The customer, therefore, chose the most cost effective repair method.
