The flange and bolts were suffering from corrosion problems due to the coast nearby.

Photograph Descriptions

- * Overview of fire extinguishing system ,
- * Surface Preparation and applying 8411 as a corrosion inhibitor. ,
- * Applying Belzona 3411 ,
- * Application completed ,

Application Situation

Fire extinguishing system

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet GSS-11.

Belzona Facts

The plant is near the coast and the flange and bolts are exposed to humid environment which caused corrosion problem, such as crevice corrosion. Applying Belzona 3411 system protects the fire extinguishing system from corrosion whilst allowing easy inspection when required.
