- * Preparation of the surface ,
- * Completed application ,
- * Completed application ,

Application Situation

A Hellan fluid strainer at a Water Pollution Control Plant.

Application Method

The application was carried out in accordance with Belzona Know-How System Leaflet CEP-5 for the repair of general erosion damage. The surface was blasted to prepare the area. Belzona 1212 was applied to build up any areas that were pitting. As a two coat system, Belzona 1331 was brush applied to the surface in accordance with Belzona Instructions For Use.
